DATA CHIUSURA

28 Apr 2015

AGEVOLAZIONE

Europeo

STANZIAMENTO

€ 80 000 000

SOGGETTO GESTORE

Commissione europea

DESCRIZIONE

Bando H2020-MSCA-RISE-2015 nell'ambito del programma per la ricerca e l'innovazione Horizon 2020.

Obiettivo delle **azioni Marie Skłodowska-Curie** è assicurare una formazione eccellente e innovativa alla ricerca e interessanti opportunità di carriera e di scambio di conoscenze attraverso la cooperazione transfrontaliera e la mobilità intersettoriale dei ricercatori.

Il bando intende promuovere una collaborazione internazionale e intersettoriale attraverso distacchi di personale per condividere scambi di conoscenze e buone prassi.

Objective:

The RISE scheme will promote international and inter-sector collaboration through research and innovation staff exchanges, and sharing of knowledge and ideas from research to market (and vice-versa) for the advancement of science and the development of innovation.

The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps to turn creative ideas into innovative products, services or processes.

Scope:

RISE involves organisations from the academic and non-academic sectors (in particular SMEs), based in Europe (EU Member States and Associated Countries) and outside Europe (third countries).

Support is provided for the development of partnerships in the form of joint research and innovation activities between the participants. This is aimed at knowledge sharing via international as well as inter-sectoral mobility, based on two-way secondments of research and innovation staff (exchanges) with an in-built return mechanism.

The organisations constituting the partnership contribute directly to the implementation of the joint research and innovation activities by seconding and/or hosting eligible staff members.

The proposed research and innovation activities should exploit complementary competences of the participants, as well as other synergies, and enable networking activities, organisation of workshops and conferences to facilitate sharing of knowledge, new skills acquisition and career development for research and innovation staff members.

Activities can focus either on one dimension of mobility (intersectoral / international), or include a combination of both.

Exchanges can be for both early-stage and experienced researchers' levels and can also include administrative, managerial and technical staff supporting the research and innovation activities of the proposal.

Support for the exchanges between institutions in the EU Member States and Associated Countries covers only inter-sectoral secondments.

Exchanges with institutions from third countries can be inter-sectoral secondments as well as secondments within the same sector.

No secondments between institutions located in third countries or within the same EU Member State or Associated Country can be supported.

Expected impact:

- Research and innovation activities under RISE are expected to build or enhance new and existing networks of international and inter-sectoral cooperation. They will significantly strengthen the interaction between organisations in the academic and non-academic sectors, and between Europe and third countries.
- In terms of knowledge sharing and broad skills development, they will better align different cultures and expectations, with a view to a more effective contribution of research and innovation to Europe's knowledge economy and society.

Il contributo consiste in un premio concesso sulla base dei criteri di eccellenza, impatto e qualità.

Le domande devono essere presentate entro le ore 17.00 del **28 aprile 2015**.

Gli esiti dell'istruttoria saranno comunicati entro 5 mesi dalla chiusura del bando.
