

Horizon 2020: ERC Advanced Grants - ERC-2015-ADG

DATA APERTURA 10 Feb 2015	DATA CHIUSURA 02 Jun 2015
AGEVOLAZIONE Europeo	STANZIAMENTO € 630 000 000
SOGGETTO GESTORE Commissione europea	

DESCRIZIONE

Bando ERC Advanced Grants nell'ambito del programma di ricerca e innovazione Horizon 2020.

Il bando **ERC Advanced Grant (AdG)** permette a leader affermati della ricerca di qualsiasi età e nazionalità di portare avanti progetti innovativi e ad alto rischio in grado di aprire nuove direzioni nei loro rispettivi campi di ricerca e in altri settori.

Il bando finanzia progetti di ricerca nei seguenti **campi**:

- Physical Sciences & Engineering (Panels: PE1 – PE10),
- Life Sciences (Panels: LS1 – LS9),
- Social Sciences & Humanities (Panels: SH1 – SH6).

Advanced Grants are designed to support excellent Principal Investigators at the career stage at which they are already established research leaders with a recognised track record of research achievements. Applicant Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal.

This action is open to researchers of any nationality who intend to conduct their research activity in any Member State or Associated Country.

The ERC's frontier research grants operate on a 'bottom-up' basis without predetermined priorities.

The call 'ERC-2015-AdG' consists of one call with a single deadline applying to each of the three main research domains:

- Physical Sciences & Engineering (Panels: PE1 – PE10),
- Life Sciences (Panels: LS1 – LS9),
- Social Sciences & Humanities (Panels: SH1 – SH6).

Il contributo comunitario coprirà fino al **100%** delle spese ammissibili.

Nel caso degli Advanced Grants il contributo può raggiungere i **2,5 milioni di euro** per 5 anni.

The Union financial contribution will take the form of the reimbursement of up to 100% of the total eligible and approved direct costs and of flat-rate financing of indirect costs on the basis of 25% of the total eligible direct costs. The level of the awarded grant represents a maximum overall figure - the final amount to be paid must be justified on the basis of the costs actually incurred for the project.

Advanced Grants may be awarded up to a maximum of EUR 2 500 000 for a period of 5 years.

However, up to an additional EUR 1 000 000 can be requested in the proposal to cover (a) eligible "start-up" costs for Principal Investigators moving to the EU or an Associated Country from elsewhere as a consequence of receiving the ERC grant, and/or (b) the purchase of major equipment and/or (c) access to large facilities.

Le domande devono essere presentate entro le **ore 17.00 (ora locale di Bruxelles) del 2 giugno 2015**.

Le domande saranno valutate sulla base dei seguenti **criteri**:

- eccellenza
- impatto
- qualità e efficienza nell'implementazione

Per maggiori informazioni consultare i Links.

ERC Advanced Grant Principal Investigators are expected to be active researchers and to have a track record of significant research achievements in the last 10 years which must be presented in the application. There is little prospect of an application succeeding in the absence of such a record, which identifies investigators as exceptional leaders in terms of originality and significance of their research contributions.

Thus, in most fields, Principal Investigators of Advanced Grant proposals will be expected to demonstrate a record of achievements appropriate to the field and at least matching one or more of the following benchmarks:

- 10 publications as senior author (or in those fields where alphabetic order of authorship is the norm, joint author) in major international peer-reviewed multidisciplinary scientific journals, and/or in the leading international peer-reviewed journals and peer-reviewed conferences proceedings of their respective field;
- 3 major research monographs, of which at least one is translated into another language. This benchmark is relevant to research fields where publication of monographs is the norm (e.g. humanities and social sciences).

Other alternative benchmarks that may be considered (individually or in combination) as indicative of an exceptional record and recognition in the last 10 years:

- 5 granted patents;
- 10 invited presentations in well-established internationally organised conferences and advanced schools;
- 3 research expeditions led by the applicant Principal Investigator;
- 3 well-established international conferences or congresses where the applicant was involved in their organisation as a member of the steering and/or organising committee;
- International recognition through scientific or artistic prizes/awards or membership in well-regarded Academies or artefact with documented use (for example, architectural or engineering design, methods or tools);
- Major contributions to launching the careers of outstanding researchers;
- Recognised leadership in industrial innovation.
